

Name Chapter 1: Accounting as a Form of Communication

Description

Instructions [Modify](#)[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 1 [▼](#) Multiple Choice**Question** The three forms of business entities are:

- Answer**
- Government, cooperatives, and philanthropic organizations
 - Financing, investing, and operating
 - ✓ Sole proprietorships, partnerships, and corporations
 - Wholesaler, manufacturer, and retailer

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 2 [▼](#) Multiple Choice**Question** Which of the following would be classified as external users of financial statements?

- Answer**
- Stockholders and management of the company
 - The controller of the company and a company's stockholders
 - The company's marketing managers
 - ✓ The creditors and stockholders of the company

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 3 [▼](#) Multiple Choice**Question** Which of the following statements would be true if you own stock in a company?

- Answer**
- You are an owner of the retained earnings and capital stock of the company.
 - ✓ You have a claim to the assets of the business
 - You have the right to receive interest on an annual basis.
 - You have the right to a portion of the company's revenues each accounting period.

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 4 [▼](#) Multiple Choice**Question** Which of the following statements best describes the term revenues?

- Answer**
- Revenues represent an outflow of assets resulting from the sale of goods or services.
 - ✓ Revenues represent assets received from the sale of products or services.
 - Revenues represent assets used or consumed in the sale of products or services.
 - Revenues represent the dollar amount of bonds sold to the public.

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 5 [▼](#) Multiple Choice**Question** Which one of the following events involves a liability for a business?

- Answer**
- ✓ Loans to be repaid to banks
 - Inventories purchased for cash
 - Amounts invested by the owners
 - Stock sold to the general public

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 6 [▼](#) Multiple Choice**Question** Which of the following best describes the term "expenses"?

- Answer**
- The amount of total profits earned by a business since it began operations.
 - The amount of interest or claim that the owners have in the business.
 - The future economic resources of a business entity.
 - ✓ The outflow of assets resulting from the sale of goods and services.

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 7 [▼](#) Multiple Choice**Question** Which one of the following business decisions will **least** likely require financial information?

- Answer**
- The Local Bank is reviewing the loan application from Marla Boutique Corp.
 - Marla Boutique Corp. is attempting to sell its stock to the public.
 - The labor union representing Lawn Doctor's employees is negotiating a pay raise as part of a new labor agreement.
 - ✓ Marla Boutique's management is deciding whether to wash its vans today or tomorrow.

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 8 [▼](#) Multiple Choice**Question** Which one of the following is **not** an external user of financial information?

- Answer**
- ✓ Company management
 - Internal Revenue Service
 - Creditors
 - Stockholders

[◀ Add Question Here](#)[Modify](#) [Remove](#)Question 9 [▼](#) Multiple Choice**Question** Bush Company is ready to sell its bonds. Which one of the following financial questions will investors most likely want answered before they make a purchase?

- Answer**
- How much did Bush Company earn last year?
 - What will be Bush Company's cost to start operations in another city?

- ✓ How much debt does Bush Company already have?
Will Bush Company pay dividends?

[◀ Add Question Here](#)

Question 10 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question What is the name of the branch of accounting concerned with providing managers and administrators with information to facilitate the planning and control of business operations?

Answer

- ✓ Management accounting
- Auditing
- Financial accounting
- Bookkeeping

Question 16 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which of the following is an organization that lends funds to a business entity and expects repayment of the funds?

Answer

- A partner
- A stockholder
- An owner
- ✓ A creditor

[◀ Add Question Here](#)

Question 17 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question You are a potential stockholder and are concerned that a particular company you are ready to invest in might have too much debt. Which financial statement would provide you information needed in order to evaluate your concern?

Answer

- ✓ Balance sheet
- Income statement
- Statement of retained earnings
- Statement of public accounting

[◀ Add Question Here](#)

Question 18 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which financial statement would you analyze to determine if a company distributed any of its profits to its shareholders?

Answer

- Balance Sheet

- ✓ Statement of Retained Earnings
- Income Statement
- Statement of Public Accounting

[◀ Add Question Here](#)

Question 19 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which financial statement would you refer to in order to determine whether a company owed funds to creditors?

- Answer**
- ✓ Balance Sheet
 - Statement of Retained Earnings
 - Income Statement
 - Statement of Public Accounting

[◀ Add Question Here](#)

Question 20 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which one of the following is an economic obligation for a business entity?

- Answer**
- Salaries paid to employees for services rendered
 - ✓ Amounts owed to creditors
 - Materials used in manufacturing products
 - Payment of rent for the next year

[◀ Add Question Here](#)

Question 21 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which one of the following is a correct expression of the accounting equation?

- Answer**
- Assets + Liabilities = Owners' Equity
 - Assets = Liabilities - Owners' Equity
 - Assets + Owners' Equity = Liabilities
 - ✓ Assets = Liabilities + Owners' Equity

[◀ Add Question Here](#)

Question 22 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question How is the balance sheet linked to the other financial statements?

- Answer**
- The amount of retained earnings reported on the balance sheet is equal to net income.
 - Retained earnings is added to total assets and reported on the balance sheet.
 - ✓ Net income increases retained earnings on the statement of retained earnings, which ultimately increases retained earnings on the balance sheet.
 - There is no link between the balance sheet and other statements, as each contains different accounts and provides different information.

[◀ Add Question Here](#)

Question 23 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which of the following is the correct date format for the financial statement heading?

- Answer**
- Balance sheet for the year ended June 30, 2012
 - Income statement at December 31, 2012
 - ✓ Balance sheet at December 31, 2012
 - Statement of retained earnings at December 31, 2012

[◀ Add Question Here](#)

Question 24 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which of the following best describes the term "retained earnings"?

- Answer**
- The amount of total profits earned by a business since it began operations.
 - The amount of interest or claim that the owners have on the assets of the business.
 - The future economic resources of a business entity.
 - ✓ The cumulative profits earned by the business less any dividends distributed.

[◀ Add Question Here](#)

Question 25 ▾ **Multiple Choice**

[Modify](#) [Remove](#)

Question Which of the following best describes the term "assets"?

- Answer**
- The amount of total profits earned by a business since it began operations.
 - The amount of interest or claim that the owners have in the business.
 - ✓ The economic resources of a business entity.
 - The cumulative profits earned by a business less any dividends distributed.

Question 34 **Multiple Choice**

Question Tempo Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|--------------------------------|-----------|---------------------|-----------|
| Cash | \$ 15,000 | Accounts receivable | \$ 50,000 |
| Property, plant, and equipment | 70,000 | Long-term debt | 40,000 |
| Capital stock | 100,000 | Accounts payable | 20,000 |
| Retained earnings | ? | Inventory | 35,000 |

What amount should Tempo report on its balance sheet for total assets?

- Answer** \$110,000
 \$155,000
 \$170,000
 \$190,000

Correct Feedback \$15,000+\$50,000+\$70,000+\$35,000 = \$170,000

Incorrect Feedback \$15,000+\$50,000+\$70,000+\$35,000 = \$170,000

[◀ Add Question Here](#)

Question 35 **Multiple Choice**

Question Ronald Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|--------------------------------|-----------|---------------------|-----------|
| Cash | \$ 25,000 | Accounts receivable | \$ 48,000 |
| Property, plant, and equipment | 69,000 | Long-term debt | 40,000 |
| Capital stock | 100,000 | Accounts payable | 20,000 |
| Retained earnings | ? | Inventory | 33,000 |

What amount should Ronald report on its balance sheet for total assets?

Answer \$175,000
 \$141,000
 \$195,000
 \$194,000

Correct Feedback $\$25,000 + \$48,000 + \$69,000 + \$33,000 = \$175,000$

Incorrect Feedback $\$25,000 + \$48,000 + \$69,000 + \$33,000 = \$175,000$

[◀ Add Question Here](#)

[Remove](#)

Question 36

Multiple Choice

Question Tempo Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|--------------------------------|-----------|---------------------|-----------|
| Cash | \$ 15,000 | Accounts receivable | \$ 50,000 |
| Property, plant, and equipment | 70,000 | Long-term debt | 40,000 |
| Capital stock | 100,000 | Accounts payable | 20,000 |
| Retained earnings | ? | Inventory | 35,000 |

What is Tempo's retained earnings balance at the end of the current year?

Answer \$10,000
 \$110,000
 \$160,000
 \$170,000

Correct Feedback Assets: $\$15,000 + \$70,000 + \$50,000 + \$35,000 = \$170,000$
 Liabilities: $\$40,000 + \$20,000 = \$60,000$
 Owners' equity: $\$170,000 - \$60,000 = \$110,000$
 Retained earnings: $\$110,000 - \$100,000 = \$10,000$

Incorrect Feedback Assets: $\$15,000 + \$70,000 + \$50,000 + \$35,000 = \$170,000$
 Liabilities: $\$40,000 + \$20,000 = \$60,000$
 Owners' equity: $\$170,000 - \$60,000 = \$110,000$
 Retained earnings: $\$110,000 - \$100,000 = \$10,000$

[Remove](#)

Question 37

Multiple Choice

Question Ronald Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|--------------------------------|-----------|---------------------|-----------|
| Cash | \$ 25,000 | Accounts receivable | \$ 46,000 |
| Property, plant, and equipment | 69,000 | Long-term debt | 41,000 |
| Capital stock | 107,000 | Accounts payable | 22,000 |
| Retained earnings | ? | Inventory | 33,000 |

What is Ronald's retained earnings balance at the end of the current year?

Answer \$10,000
 \$3,000
 \$66,000
 \$110,000

Correct Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Incorrect Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Question 38

Multiple Choice

Question Ronald Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|-----------------------------|-----------|---------------------|-----------|
| Cash | \$ 25,000 | Accounts receivable | \$ 46,000 |
| Property, plant & equipment | 69,000 | Long-term debt | 41,000 |
| Capital stock | 107,000 | Accounts payable | 22,000 |
| Retained earnings | ? | Inventory | 33,000 |

What is Ronald's total liabilities balance at the end of the current year?

Answer \$3,000
 \$110,000
 \$63,000
 \$173,000

Correct Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Incorrect Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Question 39

Multiple Choice

Question Ronald Corporation's end-of-year balance sheet consisted of the following amounts:

| | | | |
|-----------------------------|-----------|---------------------|-----------|
| Cash | \$ 25,000 | Accounts receivable | \$ 46,000 |
| Property, plant & equipment | 69,000 | Long-term debt | 41,000 |
| Capital stock | 107,000 | Accounts payable | 22,000 |
| Retained earnings | ? | Inventory | 33,000 |

What is Ronald's owners' equity balance at the end of the current year?

Answer

\$3,000

✓ \$110,000

\$63,000

\$173,000

Correct Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Incorrect Feedback Assets: $\$25,000 + \$69,000 + \$46,000 + \$33,000 = \$173,000$
 Liabilities: $\$41,000 + \$22,000 = \$63,000$
 Owners' equity: $\$173,000 - \$63,000 = \$110,000$
 Retained earnings: $\$110,000 - \$107,000 = \$3,000$

Question 40 **Multiple Choice**

[Modify](#) [Remove](#)

Question The Ranier Company reported the following items on its financial statements for the year ending December 31, 2012:

| | | | |
|----------------|------------|--------------------|-----------|
| Sales | \$ 560,000 | Cost of goods sold | \$400,000 |
| Salary expense | 40,000 | Interest expense | 30,000 |
| Dividends | 20,000 | Income tax expense | 25,000 |

The income statement for Ranier will report net income for the current year in the amount of

Answer

\$ 45,000

✓ \$ 65,000

\$ 85,000

\$ 465,000

Correct Feedback $\$560,000 - \$400,000 - \$40,000 - \$30,000 - \$25,000 = \$65,000$

Incorrect Feedback $\$560,000 - \$400,000 - \$40,000 - \$30,000 - \$25,000 = \$65,000$

[◀ Add Question Here](#)

Question 41 **Multiple Choice**

[Modify](#) [Remove](#)

Question The Ranier Company reported the following items on its financial statements for the year ending December 31, 2012:

| | | | |
|----------------|------------|--------------------|-----------|
| Sales | \$ 560,000 | Cost of goods sold | \$400,000 |
| Salary expense | 40,000 | Interest expense | 30,000 |
| Dividends | 20,000 | Income tax expense | 25,000 |

How much will be reported as retained earnings on Ranier's balance sheet at December 31, 2012, if this is the first year of operations?

Answer

✓ \$ 45,000

\$ 65,000

\$ 85,000

Not enough information is provided.

Correct Feedback Net income: $\$560,000 - \$400,000 - \$40,000 - \$30,000 - \$25,000 = \$65,000$
 Retained earnings: $\$65,000 - \$20,000 = \$45,000$

Incorrect Feedback Net income: $\$560,000 - \$400,000 - \$40,000 - \$30,000 - \$25,000 = \$65,000$
 Retained earnings: $\$65,000 - \$20,000 = \$45,000$

[◀ Add Question Here](#)

Question 42 **Multiple Choice**

[Modify](#) [Remove](#)

Question Raymond Corporation reported the following information for the year ended December 31, 2012:

| | |
|--|-----------|
| Net income | \$ 10,000 |
| Dividends | 6,000 |
| Retained earnings at December 31, 2012 | 25,000 |

What was the balance of Raymond's retained earnings at January 1, 2012?

Answer

✓ \$21,000

\$29,000

\$31,000

\$35,000

Correct Feedback $\$25,000 + \$6,000 - \$10,000 = \$21,000$

Incorrect Feedback $\$25,000 + \$6,000 - \$10,000 = \$21,000$

[◀ Add Question Here](#)

Question 43 **Multiple Choice**

[Modify](#) [Remove](#)

Question Raymond Corporation reported the following information for the year ended December 31, 2012:

| | |
|--|-----------|
| Net income | \$ 10,000 |
| Dividends | 6,000 |
| Retained earnings at December 31, 2012 | 25,000 |

What was the economic effect of the payment of Raymond's dividends?

Answer

The dividend reduced net income for 2012.

The dividend should be equal to net income if the company's accounting equation is in balance.

✓ The dividends reduce total retained earnings for the year.

The dividends must be paid whenever Raymond Corp. reports net income.

[◀ Add Question Here](#)

Question 44 **Multiple Choice**

[Modify](#) [Remove](#)

Question Clark Corp. reported the following information for the year ended December 31, 2012:

| | |
|----------|-----------|
| Revenues | \$ 50,000 |
| Expenses | 20,000 |

| | |
|--|---------|
| Retained earnings at December 31, 2011 | 100,000 |
| Retained earnings at December 31, 2012 | 105,000 |

How much was paid out in dividends by Clark in 2012?

- Answer**
- \$ 20,000
 - \$ 25,000
 - \$ 30,000
 - \$ 50,000

Correct Feedback $\$100,000 + \$50,000 - \$20,000 - X = \$105,000$
 $X = \$25,000$

Incorrect Feedback $\$100,000 + \$50,000 - \$20,000 - X = \$105,000$
 $X = \$25,000$

[◀ Add Question Here](#)

Question 45

Question Tiny Corp. reported the following information for the year ended December 31, 2012.

| | |
|--|-----------|
| Revenue | \$ 40,000 |
| Expenses | 23,000 |
| Dividends | 10,000 |
| Retained earnings at December 31, 2012 | 175,000 |

What was the retained earnings balance for Tiny at December 31, 2011?

- Answer**
- \$ 165,000
 - \$ 168,000
 - \$ 182,000
 - \$ 192,000

Correct Feedback $X + \$17,000 - \$10,000 = \$175,000$
 $X = \$168,000$

Incorrect Feedback $X + \$17,000 - \$10,000 = \$175,000$
 $X = \$168,000$

[◀ Add Question Here](#)

Question 46

Question Star Consultants had the following balance sheet amounts at the beginning of the year:

| | |
|----------------------|-----------|
| Total assets | \$400,000 |
| Total owner's equity | 150,000 |

During the year, total assets increased by \$100,000 and total liabilities increased by \$40,000. The company also paid \$30,000 in dividends. No other transactions occurred except revenues and expenses. How much is net income for the year?

- Answer**
- \$30,000
 - \$60,000
 - \$70,000
 - \$90,000

Correct Feedback Assets: $\$400,000 + \$100,000 = \$500,000$
Liabilities: $(\$400,000 - \$150,000) + \$40,000 = \$290,000$
Owners' Equity at Year End: $\$500,000 - \$290,000 = \$210,000$
Net Income: $\$210,000 - \$150,000 + \$30,000 = \$90,000$

Incorrect Feedback Assets: $\$400,000 + \$100,000 = \$500,000$
Liabilities: $(\$400,000 - \$150,000) + \$40,000 = \$290,000$
Owners' Equity at Year End: $\$500,000 - \$290,000 = \$210,000$
Net Income: $\$210,000 - \$150,000 + \$30,000 = \$90,000$

[◀ Add Question Here](#)

Question 47

Question On January 1, 2012, Zonka Company's balance in retained earnings was \$70,000. At the end of the year, December 31, 2012, the balance in retained earnings was \$94,000. During 2012, the company earned net income of \$40,000. How much were dividends?

- Answer**
- \$16,000
 - \$24,000
 - \$40,000
 - \$64,000

Correct Feedback $\$70,000 + \$40,000 - \$94,000 = \$16,000$

Incorrect Feedback $\$70,000 + \$40,000 - \$94,000 = \$16,000$

[◀ Add Question Here](#)

Question 48

Question On January 1, 2012, America Company's balance in retained earnings was \$70,000. During 2012, the company earned net income of \$43,000 and paid \$15,000 in dividends. Calculate the retained earnings balance at December 31, 2012.

- Answer**
- \$42,000
 - \$90,000
 - \$98,000
 - \$113,000

Correct Feedback $\$70,000 + \$43,000 - \$15,000 = \$98,000$

Incorrect Feedback $\$70,000 + \$43,000 - \$15,000 = \$98,000$

[◀ Add Question Here](#)

Question 49

Question The following information is provided by the Sensible Corporation:

| | |
|-----------------------------|-----------|
| Beginning retained earnings | \$ 50,000 |
|-----------------------------|-----------|

| | |
|--------------------------|--------|
| Ending retained earnings | 70,000 |
| Dividends paid | 10,000 |
| Revenue | 50,000 |

What is the net income for Sensible Corp.?

- Answer**
- \$10,000
 - \$20,000
 - \$30,000
 - Unable to tell from the information provided.

Correct Feedback $\$50,000 + x - \$10,000 = \$70,000$
 $x = \$30,000$

Incorrect Feedback $\$50,000 + x - \$10,000 = \$70,000$
 $x = \$30,000$

Question 50 Multiple Choice

Question The following information is provided by the Sensible Corporation:

| | |
|-----------------------------|-----------|
| Beginning retained earnings | \$ 50,000 |
| Ending retained earnings | 70,000 |
| Dividends Paid | 10,000 |
| Revenue | 50,000 |

Calculate Sensible Corporation's expenses.

- Answer**
- \$20,000
 - \$30,000
 - \$40,000
 - Cannot tell from the information provided.

Correct Feedback $\$50,000 + X - \$10,000 = \$70,000$
 $X = \$30,000$ or Net Income
 $\$50,000$ (Revenue) - $\$30,000$ (Net Income) = $\$20,000$ Expenses

Incorrect Feedback $\$50,000 + X - \$10,000 = \$70,000$
 $X = \$30,000$ or Net Income
 $\$50,000$ (Revenue) - $\$30,000$ (Net Income) = $\$20,000$ Expenses

Question 52 Multiple Choice

Question Gardner Company reports the following information at December 31, 2012:

| | |
|------------------|-----------|
| Revenue | \$150,000 |
| Cash | \$ 30,000 |
| Accounts payable | \$ 40,000 |
| Dividends | \$ 10,000 |
| Expenses | \$ 85,000 |

What is Gardner Company's net income?

- Answer**
- \$ 15,000
 - \$ 45,000
 - \$ 55,000
 - \$ 65,000

Correct Feedback $\$150,000$ (Revenue) - $\$85,000$ (Expenses) = $\$65,000$ (Net Income)

Incorrect Feedback $\$150,000$ (Revenue) - $\$85,000$ (Expenses) = $\$65,000$ (Net Income)

Question At December 31, 2012, the accounting records of Green Corporation contain the following:

| | | | |
|-------------------|-----------|---------------------|-----------|
| Accounts payable | \$16,000 | Accounts receivable | \$40,000 |
| Land | \$240,000 | Cash | ? |
| Capital stock | ? | Equipment | \$120,000 |
| Building | \$180,000 | Notes payable | \$190,000 |
| Retained earnings | \$160,000 | | |

If capital stock is \$260,000, what is the December 31, 2012 cash balance?

Answer
✓ \$46,000
\$506,000
\$94,000
\$86,000

Correct Feedback Cash + \$40,000 + \$120,000 + \$180,000 + \$240,000 = \$16,000 + \$260,000 + \$160,000 + \$190,000

Incorrect Feedback Cash + \$40,000 + \$120,000 + \$180,000 + \$240,000 = \$16,000 + \$260,000 + \$160,000 + \$190,000

Question For each statement provided, choose the letter of the appropriate term from the list that each statement best describes. Some terms may be used more than once, while others are not used at all.

Answer Match Question Items

- H. - A. The portion of owner's equity that represents the net income less any dividends paid over the life of the entity.
- C. - B. The owners' claims on the assets of an entity.
- E. - C. A distribution of the net income of a business to its owners.
- L. - D. The sale of goods or the performance of services.
- A. - E. A category on the balance sheet to indicate the owners' direct investment in a corporation.
- G. - F. The cost of doing business that results from the process of generating revenues.
- B. - G. A future benefit.
- D. - H. An artificial segment on the calendar used as a basis for preparing financial statements.
- M. - I. The assumption that an entity is **not** in the process of liquidation and that it will continue indefinitely.
- I. - J. The principle or rule that specifies the amount recorded for an asset upon acquisition.
- J. - K. An entity that lends a company money with the expectation of repayment.
- K. - L. Claims of the creditors against the assets of a company.

Answer Items

- A. Capital stock
- B. Asset
- C. Owners' equity
- D. Time period
- E. Dividends
- F. Economic entity concept
- G. Expense
- H. Retained earnings
- I. Cost principle
- J. Creditor
- K. Liability
- L. Revenue
- M. Going concern
- N. Monetary unit
- O. Corporation

Question Choose the user group that is most likely to have the need listed below. (Select all that apply.)

The ability of the company to pay its debts as they become due.

Answer

- Stockholder
- Company management
- ✓ Supplier
- ✓ Banker
- Internal Revenue Service
- Securities and Exchange Commission
- Labor union

[◀ Add Question Here](#)Question 128 ▾ **Essay**[Modify](#) [Remove](#)**Question Travis Corporation**

The accountant for Travis Corporation prepared the following list of account balances from the company's records for the year ended December 31, 2012:

| | | | |
|---------------------|-----------|------------------|-----------|
| Sales revenue | \$165,000 | Cash | \$ 30,000 |
| Accounts receivable | 14,000 | Selling expenses | 44,000 |

| | | | |
|----------------------------|--------|----------------------|--------|
| Equipment | 42,000 | Common stock | 41,000 |
| Accounts payable | 12,000 | Interest income | 3,000 |
| Salaries and wages expense | 40,000 | Cost of sales | 51,000 |
| Inventories | 22,000 | Prepaid expenses | 2,000 |
| Income taxes payable | 5,000 | Income taxes expense | 18,000 |
| Notes payable | 20,000 | Retained earnings | ? |

Read the information for Travis Corporation. Determine the following amounts for Travis Corp.

| | | |
|----|---|--|
| A) | Total assets at the end of 2012 | |
| B) | Total liabilities at the end of 2012 | |
| C) | What parties have a claim on Travis Corporation's assets? Explain you answer in the terms of the accounting equation. | |

- Answer A)** \$110,000
(\$30,000 Cash + \$14,000 Accounts Receivable + \$42,000 Equipment + \$22,000 Inventories + 2,000 Prepaid Expenses = \$110,000)
- B)** \$37,000
(\$12,000 Accounts Payable + \$5,000 Income Taxes Payable + \$20,000 Notes Payable = \$37,000)
- C)** Both the creditors and the owners have a claim on the assets of the corporation. The creditors have their claim arising from the liabilities of the corporation, while the owners have a claim through the owners' (or stockholders') equity.

Question Travis Corporation

The accountant for Travis Corporation prepared the following list of account balances from the company's records for the year ended December 31, 2012:

| | | | |
|----------------------------|-----------|----------------------|-----------|
| Sales revenue | \$165,000 | Cash | \$ 30,000 |
| Accounts receivable | 14,000 | Selling expenses | 44,000 |
| Equipment | 42,000 | Common stock | 41,000 |
| Accounts payable | 12,000 | Interest income | 3,000 |
| Salaries and wages expense | 40,000 | Cost of sales | 51,000 |
| Inventories | 22,000 | Prepaid expenses | 2,000 |
| Income taxes payable | 5,000 | Income taxes expense | 18,000 |
| Notes payable | 20,000 | Retained earnings | ? |

Read the information for Travis Corporation. Determine the following amounts for Travis Corporation:

| | | |
|----|---|--|
| A) | Total revenues for 2012. | |
| B) | Total expenses for 2012. | |
| C) | What is the purpose of the income statement? | |
| D) | Is Travis Corp. profitable? Explain your answer. | |
| E) | Is this the first year of operations for Travis Corp.? Explain your answer. | |

- Answer A)** \$168,000
(\$165,000 Sales Revenue + \$3,000 Interest Income = \$168,000)
- B)** \$153,000
(\$51,000 Cost of Sales + \$40,000 Salaries & Wages Expense + \$44,000 Selling Expenses + \$18,000 Income Taxes Expense = \$153,000)

- C) The purpose of the income statement is to provide information regarding the revenues and expenses of the entity. The difference shows the profitability of the company for a particular period of time.
- D) Travis Corporation had net income for the period of \$15,000. Since revenues exceeded expenses for the period, the company would be considered profitable.
- E) This would not be the first year of operations for Travis Corporation. The reasons for this are that the ending Retained Earnings balance is greater than the net income of \$15,000. Since the ending balance of Retained Earnings is \$32,000, and Net Income for the period was \$15,000 as well as apparently no dividends being paid to the stockholders during the year, Travis Corporation began the year with a balance of \$17,000 (\$32,000 - \$15,000) in Retained Earnings.

Question Assume that you have received copies of the financial statements for PepsiCo for the years ending December 31, 2012 and 2011. Answer the following questions:

- A) If you were a banker, why would you need information from PepsiCo's financial statements?
- B) If you were a potential investor in PepsiCo stock, what information would you want from their financial statements?
- C) If you were a labor negotiator for a union that represents a group of PepsiCo's employees, which financial statement would provide you with the most useful information?

Answer A) A banker wants to be assured that the company will make its interest payments and repay the principle of the loan in a timely manner.

B) Investors want to know whether they should make an investment in the company's stock, or continue to hold their investment. They will be looking at the company's recent performance, whether the company has been profitable, how their profits compare with other companies, and how much the company has paid in dividends.

C) A labor negotiator needs to know how much profit the company has made. This information is found on the Income Statement.

Question 139 ▾ **Essay**

[Modify](#) [Remove](#)

Question Target, Inc., started the year with total assets of \$400,000 and total liabilities of \$240,000. Net income for the year is \$120,000 and dividends declared and paid during the year are \$90,000.

- A) What is the amount of Target's total stockholders' equity at the end of the year?
- B) Could Target have paid additional dividends during the year? Explain your answer.

Answer A) \$190,000
 (\$400,000 Total Assets at the beginning of the year - \$240,000 Total Liabilities at the beginning of the year = \$160,000 Total Equity at the beginning of the year)
 (\$160,000 Total Equity at the beginning of the year + \$120,000 Net Income for the year - \$90,000 Dividends declared and paid during the year = \$190,000)

B) Yes. Assuming the company has enough cash to do so, dividends can be paid. Net income exceeded the amount of dividends paid by \$30,000 (\$120,000 - \$90,000), so the amount paid could have been increased. Also the company has total positive retained earnings.

Question Presented below are selected data from the balance sheet of Farmer Company for 2012. The figures are expressed in millions.

| | |
|--------------------------------|----------|
| Total Current assets | \$ 5,572 |
| Property, plant, and equipment | 16,325 |
| Other assets | ??? |
| Total Current liabilities | 3,274 |
| Total Long-term debt | 5,632 |
| Total Stockholders' equity | 19,639 |

A) Determine the amount of "Other assets" for Farmer's 2012 balance sheet. (HINT: you must use the accounting equation concept to determine your answer.)

B) How much of Farmer Company is financed by creditors? How much is financed by the owners?

Answer A) \$6,648
 (\$3,274 Current liabilities + \$5,632 Long-term debt + \$19,639 Stockholders' equity = \$28,545 Total Assets)
 (\$28,545 Total Assets - \$5,572 Current assets - 16,325 Property, plant & equipment = \$6,648)

B) Amount of financing by creditors: \$8,906
 (\$3,274 Current liabilities + \$5,632 Long-term debt = \$8,906)
 Amount of financing by owners: \$19,639
 (\$19,639 Stockholders' equity)

Question Presented below are selected data from the accounting records for Micco's Gift Store for 2012.

| | |
|--------------------|------------|
| Net sales | \$ 190,000 |
| Income taxes | 30,000 |
| Cost of sales | 80,000 |
| Operating expenses | 45,000 |
| Dividends | 12,000 |

A) Calculate the net income or loss for 2012.

B) Explain how the amount from part "A" will affect the financial position of Micco's Gift Store.

C) Is the company profitable? Explain your answer.

Answer A) \$35,000
 (\$190,000 Net sales - \$30,000 Income taxes - \$80,000 Cost of sales - \$45,000 Operating expenses = \$35,000)

B) Net income will improve the company's financial position.

C) Yes. The amount of revenues exceeds the amount of expenses by \$35,000.

Question The following information comes from the records of Morton Corporation. Assume no additional investment by owners when answering the following questions:

| | Assets | Liabilities | Owners' Equity |
|-------------------|-----------|-------------|----------------|
| January 1, 2012 | \$ 98,000 | \$ 54,000 | \$ _____ |
| December 31, 2012 | 131,000 | _____ | 84,000 |

A) What is the amount of owners' equity at January 1, 2012? _____

B) What is the amount of liabilities at December 31, 2012? _____

C) Assume that the company paid dividends of \$22,000 during the year. How much net income did it earn during the year?

D) Assume that the company paid no dividends during the year. Without looking at the income statement, how can you tell if the company is profitable or not?

Answer A) \$44,000
 (\$98,000 Assets - \$54,000 Liabilities = \$44,000)

B) \$47,000
 (\$131,000 Assets - \$84,000 Owners' Equity = \$47,000)

C) \$62,000
 (\$44,000 Beginning Owners' Equity + X - \$22,000 Dividend = \$84,000 Ending Owners' Equity)
 (X = \$106,000 - 44,000 = \$62,000)

- D) Assuming that the increase in owners' equity would come from net income, the company would have to be considered profitable. Net income will increase retained earnings which is a part of owners' equity

Question Avery Corporation began the year with total assets of \$800,000 and total liabilities of \$620,000. Use the accounting equation to answer the following questions. Assume no additional investment by owners when answering these questions.

- A) What was the amount of Avery's total assets at the end of the year if liabilities decreased by \$60,000 and owners' equity increased by \$90,000?
- B) Was the company profitable? Explain your answer.

Answer A) \$830,000

| | Assets | Liabilities | Owners' Equity |
|------------------------|---------------|-----------------|----------------|
| Beginning of the year | \$800,000 | \$620,000 | \$180,000 |
| Change during the year | <u>30,000</u> | <u>(60,000)</u> | <u>90,000</u> |
| End of the year | \$830,000 | \$560,000 | \$270,000 |

- B) The company was profitable because the owners' equity increased from the beginning of the year to the end of the year.

Question The beginning balance of retained earnings was \$630,000, and the ending balance was \$650,000. The company declared and paid dividends of \$60,000.

- A) Determine the amount of net income for the year.
- B) What information would one find on the income statement in addition to net income?

Answer A) \$80,000
 (\$650,000 Ending Retained Earnings - \$630,000 Beginning Retained Earnings = \$20,000)
 (\$20,000 + \$60,000 Dividends = \$80,000)

- B) The Income Statement will show the sources of amounts earned (Revenues) as well as the amount and type of costs incurred by the company (Expenses) during the period.

Question 146 ▾ **Essay**

[Modify](#) [Remove](#)

Question The Trenton Corporation began 2012 with \$390,000 in assets, \$140,000 in liabilities, and \$170,000 of retained earnings. Net income for the year was \$120,000, and dividends of \$110,000 were paid.

- A) Prepare a statement of retained earnings for 2012.
- B) What is the nature or purpose of the statement of retained earnings?
- C) What was the amount of capital stock for Trenton Corporation at the beginning of 2012?
- D) Identify what business events might occur in Trenton Corp.'s business operations that would cause the two stockholders' equity items to increase.
- E) How do you identify whether Trenton was profitable during 2012 by examining the statement of retained earnings?

Answer A)

| Trenton Corporation Statement of Retained Earnings For the Year Ended December 31, 2012 | | |
|---|--|------------------|
| Beginning balance | | \$170,000 |
| Add: Net income for the year | | 120,000 |
| Deduct: Dividends for the year | | <u>(110,000)</u> |
| Ending balance | | <u>\$180,000</u> |

- B) The statement of retained earnings explains the change in retained earnings during a period.
- C) \$80,000
 (\$390,000 Total Assets - \$140,000 Total Liabilities - \$170,000 Beginning Retained Earnings = \$80,000)
- D) One way that the company can increase stockholders' equity is to sell additional shares of stock. Retained earnings will increase when the company reports net income for the period greater than the dividends paid.
- E) The statement of retained earnings shows that the company was profitable for the year by reporting net income for the period. If the company were to experience an operating loss, then this would be shown as a deduction from the beginning balance of retained earnings.

Question 147 ▾ **Essay**

[Modify](#) [Remove](#)

Question Below are several accounts from Costello Company's accounting records. Answer the questions that follow.

| | | | |
|------------------------------------|----------|--|-----------|
| Total liabilities, end of the year | \$92,000 | Total assets, end of the year | \$143,000 |
| Capital stock, end of the year | 16,000 | Retained earnings, beginning of the year | 15,000 |
| Dividends for the period | 20,000 | Net income | 40,000 |

- A) How much is the balance of retained earnings at the end of the year?
- B) Show the accounting equation for Costello Company at the end of the year with the respective dollar amounts.
- C) If stockholders' equity increases during the year, does that mean that the company is profitable? Explain your answer.

Answer A) \$35,000
 (\$15,000 Retained earnings, beginning of the year + \$40,000 Net income - \$20,000 Dividends for the period = \$35,000) OR
 (\$143,000 Total assets, end of the year - \$92,000 Total liabilities, end of the year - \$16,000 Capital stock, end of the year = \$35,000)

- B) \$143,000 Total assets, end of the year = \$92,000 Total liabilities, end of the year + \$51,000 Owners' Equity, end of the year (\$16,000 Capital stock, end of the year + \$35,000 Retained earnings, end of the year)
- C) This would depend upon what causes the stockholders' equity to increase. If the increase were due to an increase in retained earnings, then the company would have been profitable for the period. But if the increase were due to an increase in the amount of capital stock issued, this would not be a measure of profitability.

Question Several amounts from Duggard Company at December 31, 2012 are listed below. Answer the questions.

| | | | |
|--------------------|-----------|---------------------------------|-----------|
| Service revenue | \$245,000 | Salaries expense | \$109,000 |
| Dividends paid | 15,000 | Rent expense | 36,000 |
| Buildings | 110,000 | Land | 100,000 |
| Accounts payable | 40,000 | Accounts receivable | 28,000 |
| Capital stock | 60,000 | Retained earnings, Jan. 1, 2012 | 40,000 |
| Utilities expense | 19,000 | Notes payable | 30,000 |
| Income tax payable | 4,000 | Income tax expense | 11,000 |

A) Calculate net income for 2012.

B) How much is Duggard Company's retained earnings at the end of 2012?

C) What primary asset account is missing?

- Answer**
- A) \$70,000
 (\$245,000 Service Revenue - \$109,000 Salaries Expense - \$36,000 Rent Expense - \$19,000 Utilities Expense - \$11,000 Income Tax Expense = \$70,000)
- B) \$95,000
 (\$40,000 Retained Earnings, Jan 1, 2012 + \$70,000 Net Income - \$15,000 Dividends Paid = \$95,000)
- C) The Cash account is missing.

Question Macon Corporation has been in the business of delivering small packages for local companies within the city of Atlanta, Georgia, since 1960. The following information concerning financial activities during 2012 is available at December 31, 2012:

| | | | |
|------------------|-----------|-------------------------|----------|
| Delivery revenue | \$280,000 | Salary and wage expense | \$82,000 |
| Dividends paid | 85,000 | Rent expense | 43,000 |
| Buildings | 140,000 | Land | 60,000 |
| Accounts payable | 30,000 | Accounts payable | 30,000 |

| | | | |
|--------------------------------|---------|---------------------------------------|--------|
| Capital stock | 105,000 | Retained earnings, January 1, 2012 | 42,000 |
| Water, gas, and electricity | 28,000 | Notes payable | 34,000 |
| Cash | 56,000 | Income tax expense | 18,000 |

- A. Prepare an income statement for the year ended December 31, 2012.
 B. If you were a bank loan officer and Macon Corporation wanted to borrow \$100,000 from your bank, would you lend the money? Explain.
 C. Calculate retained earnings at December 31, 2012.

Answer A.

Macon Corporation
Income Statement
Year Ended December 31, 2012

| | | | |
|-----------------------------|--|---------------|------------------|
| Revenues: | | | |
| Delivery revenue | | | \$280,000 |
| Expenses: | | | |
| Salary and wage expense | | \$82,000 | |
| Rent expense | | 43,000 | |
| Water, gas, and electricity | | 28,000 | |
| Income tax expense | | <u>18,000</u> | |
| Net income | | | <u>\$109,000</u> |

- B. The company appears profitable. Basing the decision solely on profitability, it appears the company can generate operating income to enable it to repay the loan. But the company also had accounts payable and notes payable of \$30,000 and \$34,000, respectively, for which cash may not be available to pay when these amounts become due.
 C. $\$42,000 + \$109,000 - \$85,000 = \$66,000$

Question Meredith Corporation is in the business of providing dog and cat grooming services to customers within the city of New York. The following information concerning financial activities during 2012 is available at December 31, 2012:

| | | | |
|-------------------|-----------|---------------------------------|----------|
| Grooming revenue | \$130,000 | Salary and wage expense | \$44,000 |
| Dividends paid | 13,000 | Rent expense | 24,000 |
| Equipment | 40,000 | Furniture | 60,000 |
| Accounts payable | 30,000 | Accounts receivable | 23,000 |
| Capital stock | 22,000 | Retained earnings, Jan. 1, 2012 | 21,000 |
| Utilities expense | 10,000 | Notes payable | 88,000 |
| Cash | 33,000 | Income tax expense | 7,000 |

- A. Calculate net income for 2012.
 B. Prepare a statement of retained earnings for the year ended December 31, 2012.
 C. What information can you derive from the statement of retained earnings concerning this company? Explain.

Answer A. $\$130,000 - \$10,000 - \$44,000 - \$24,000 - \$7,000 = \$45,000$

B.

Meredith Corporation
Statement of Retained Earnings
For the Year Ended December 31, 2012

| | |
|------------------------------|-----------------|
| Beginning balance | \$21,000 |
| Add: Net income for the year | 45,000 |
| Less: Dividends for the year | <u>(13,000)</u> |
| Ending balance | <u>\$53,000</u> |

- C. The statement of retained earnings provides information on the changes in retained earnings during 2012. Net income causes retained earnings to increase, and dividends cause it to decrease. Since net income exceeded dividends paid, the ending balance is larger than the beginning balance.

Question Joseph is the president of Sunshine Enterprises. Sunshine Enterprises began business on January 1, 2012. The company's controller is out of the country on business. Joseph needs a copy of the company's balance sheet for a meeting tomorrow and asks his assistant to obtain the required information from the company's records. She presents Joseph with the following balance sheet. He asks you to review it for accuracy.

| Sunshine Enterprises Balance Sheet December 31, 2012 | | | |
|--|-----------|------------------------------------|-----------|
| ASSETS | | LIABILITIES & STOCKHOLDERS' EQUITY | |
| Accounts payable | \$ 30,600 | Accounts receivable | \$ 24,200 |
| Building and equipment | 177,300 | Supplies | 12,200 |
| Cash | 14,700 | Capital stock | 100,000 |
| Cash dividends paid | 16,000 | Net income for 2012 | 113,800 |

Required

- Prepare a corrected balance sheet.
- Draft a memo explaining the major differences between the balance sheet Joseph's assistant prepared and the one you prepared.

Answer

1.

| Sunshine Enterprises Balance Sheet December 31, 2012 | | | |
|--|------------------|---|------------------|
| ASSETS | | LIABILITIES & STOCKHOLDERS' EQUITY | |
| Cash | \$ 14,700 | Accounts payable | \$ 30,600 |
| Accounts receivable | 24,200 | Capital stock | 100,000 |
| Supplies | 12,200 | Retained earnings | <u>97,800*</u> |
| Building and equipment | <u>177,300</u> | | |
| Total assets | <u>\$228,400</u> | Total liabilities and stockholders' equity | <u>\$228,400</u> |

* $\$113,800 - \$16,000$

2.

Memorandum to the company president:
 TO: Company president
 FROM: Your name

DATE: January 1, 2013
SUBJECT: Corrected balance sheet

Attached please find the original balance sheet your assistant prepared, along with a corrected version of that same statement. The differences can be explained as follows:

1. The balance sheet is always as of a certain date, in this case, December 31, 2012, rather than a period of time, such as a year.
2. Accounts payable should be classified as a liability.
3. Cash dividends paid do not belong on the balance sheet; this amount should appear instead on the statement of retained earnings for the year.
4. Accounts receivable should be classified as an asset.
5. Net income for 2012 does not belong on the balance sheet; this amount should appear instead on the statement of retained earnings for the year.
6. Supplies should be classified as an asset.
7. Retained earnings should appear with capital stock as a component of stock-holders' equity on the balance sheet. Since this is the first year of operations, the retained earnings balance comprises the net income for the year less the cash dividends paid.
8. Totals were added as necessary to provide summary information.

Question Tentco reported the following amounts in various statements included in its 2012 annual report. (All amounts are stated in millions of dollars.)

| | |
|--------------------------------------|-------|
| Net income for 2010 | \$142 |
| Cash dividends declared in 2012 | 15 |
| Retained earnings, December 31, 2011 | \$ 95 |

REQUIRED:

- (1) Prepare a Statement of retained earnings for the year ended December 31, 2012.
- (2) Assume that Tentco presents a statement of stockholders' equity rather than a statement of retained earnings in its annual report. Explain how the information differs between the two statements.

Answer (1)

Tentco
Statement of Retained Earnings
For the Year Ended December 31, 2012
(amounts in millions)

| | |
|--------------------------------------|--------------|
| Retained earnings, beginning of year | \$ 95 |
| Add: Net income for the year | 142 |
| Deduct: Dividends for the year | <u>(15)</u> |
| Retained earnings, end of year | <u>\$222</u> |

(2) The statement of stockholders' equity would include all changes in stockholders' equity such as issuances and retirements of stock in addition to the information normally provided in a retained earnings statement.

Question The following information is available from the records of Focus Seascapes, Inc. at the end of the 2012 calendar year:

| | |
|--------------------------------------|----------|
| Accounts payable | \$ 4,700 |
| Service revenues | 28,000 |
| Accounts receivable | 3,600 |
| Office equipment | 9,200 |
| Capital stock | ? |
| Rent expense | 2,500 |
| Cash | 13,200 |
| Retained earnings, beginning of year | 10,500 |
| Dividends paid during the year | 3,800 |
| Salary and wage expense | 14,000 |

Required:

- (1) What is Focus' net income for the year ended December 31, 2012?
- (2) What is Focus' retained earnings balance for the year ended December 31, 2012?

Answer

1. Revenue – Expenses = Net Income
 $\$28,000 - (\$2,500 + \$14,000) = \$11,500$
2. Retained Earnings + Net Income - Dividends = Retained Earnings

| | |
|--|----------|
| (Beginning) | (Ending) |
| $\$10,500 + \$11,500 - \$3,800 = \$18,200$ | |

Question List the four financial statements. Explain the connection between these four statements.

Answer

1. Balance sheet
2. Income statement
3. Statement of retained earnings
4. Statement of cash flows

Net income on the income statement increases retained earnings on the statement of retained earnings. The ending balance in the statement of retained earnings goes to the balance sheet. Finally, the net increase in cash at the bottom of the statement of cash flows equals the amount shown in cash on the balance sheet.

Required: Which statement indicates the financial position of the company? What information is provided on that statement that indicates the "financial position" of the company? Explain.

Answer The balance sheet, Statement A, provides information on the financial position of the company. It is expressed in terms of the accounting equation. When total liabilities are subtracted from total assets, the difference is owners' or stockholders' equity.

This amount represents net worth or the financial position of a company at the balance sheet date.

Required: Was Erwin Factory profitable both years? What are the amounts of the total revenues and total expenses, respectively, for 2012? Which financial statement provides this information to you?

Answer The company was profitable in both 2012 and 2011. For 2012, total revenues include net sales of \$209,203, and other income, \$693, for a total of \$209,896. Total expenses are cost of sales of \$136,225, selling, general and administrative expenses of \$63,895, and income tax expense of \$3,534, or a total of \$203,654. This information is reported on the income statement, Statement B.

Required: How much of Erwin Factory is financed by creditors at the end of December of 2012? Evaluate the change from 2011 to 2012.

Answer The amount of financing by creditors for 2012 is the amount of liabilities reported on the balance sheet, \$58,593. For 2011, the amount was \$59,552. Total liabilities decreased by \$959, or about 1.6%. The company must be keeping its debt at a steady position as stockholders' equity and assets have increased. The change must be examined relative to the entire financial position.

Required: Based on the information provided, is Erwin Factory considered a business or non-business entity? How do you know by examining the financial statements?

Answer Erwin Factory is a business entity, because its purpose is to make a profit, not simply provide a service. Non-business entities have no owners, and Erwin Factory has owners, as evidenced by examining the stockholders' equity section of the balance sheet.

Question What is meant by generally accepted accounting principles?

Answer Generally accepted accounting principles (GAAP) are a set of guidelines that are based on a conceptual framework. They represent the various rules, practices, and other procedures used as a basis for accounting principles. GAAP was created in response to the need for some form of regulation over the preparation of financial statements.

Question 169 ▾ **Essay**

[Modify](#) [Remove](#)

Question The following accounting principles and assumptions are included in the conceptual framework of accounting:

| | | |
|-----------------|---------------|----------------|
| Economic entity | Going concern | Cost principle |
| Monetary unit | Time period | |

For each situation in A through C below, identify which assumption or principle applies by selecting from the list provided above, and explain why that assumption or principle applies.

- A) Multinational Corp. has divisions in several countries around the world. Each of these countries has a currency different from the U.S. dollar. Multinational Corp. is a U.S. company and must include the financial data of its worldwide divisions in its financial statements.
- B) Cheater and Sly operate a security business as a partnership. They are considering the advantages of changing over to the corporate form of business.
- C) Food N' Fun is a locally owned and operated fast-food business. The owners have decided to expand into nearby cities. Expansion will require more capital, but management doesn't expect it will stay in business for more than a year or so regardless if it expands or not.

Answer

A) Monetary unit. Financial statements must be denominated in one currency--the standard monetary unit. In the United States, this unit is the dollar.

B) Economic entity. A business can take three forms. Regardless of form, however, the unit itself is distinct from other units.

- C) Going concern. A business is assumed to continue indefinitely to more accurately reflect the valuation of assets and appropriately allocate costs to accounting periods.

Question 170 ▾ **Essay**

[Modify](#) [Remove](#)

Question In 2012, you invested \$12,000 along with 5 other investors in a new theatre, Viva, that offers Broadway play productions. Because you live out of state, you have not been actively involved in the daily affairs of the theatre. On January 10, 2013, you are excited because you received \$12,000 as a dividend after the end of the 1st year of the theatre's existence. Included with your \$12,000 check are financial statements and some supplemental information regarding the accounting. The supplemental information explains:

(1) During the last three months of 2012, an aggressive advertising campaign resulted in the sale of 600 season tickets for the 2013 productions. Each season ticket cost \$120 and the resulting \$72,000 was included in 2012 income.

(2) Along with the advertising campaign, the general manager was able to secure pledges of \$7,500 for advertising by local merchants in the playbills for the first two productions for 2013. This amount is included as advertising revenue in the 2012 financial statements.

REQUIRED:

Are there any problems related to the supplementary disclosures? If so, explain and indicate what effects (over- or understatements) these items will have on the financial statements.

Answer The recognition of the 2013 season ticket sales as revenue in 2012 should not be recognized as revenue in the current year, because Viva has not provided these ticketholders with any service yet.

The recognition of \$7,500 in advertising revenue is currently just a pledge for 2013 playbills. It is not clear whether a contract has been signed with the advertisers and it sounds as if no money has changed hands. In any event, this revenue will need to be matched with the period in which the playbills are used (or 2013) rather than the current year of 2012.

As a result, the 2012 net income will be overstated by \$79,500 and the 2013 net income will be understated by \$79,500.
